[Voice of SAP \(Specially Aabled People\)](#) is one such organisation that is aimed to become the voice for 7 crore Specially Aabled People of India by connecting all the eco system partners to connect with each other, share experiences, issues, solutions, information, projects that needs CSR funding or other donations from across the globe.

Voice of SAP is formed with a mission to provide a Global Virtual Platform to the ecosystem of disabled people, families, NGOs, Advocacy groups, Solution and Service providers, entrepreneurs, business community and researchers etc. with the tools to connect, share and contribute to the upliftment of the quality of life, for the empowerment of Persons with Disability in India.

Founder of Voice of SAP, Dr. Pranav Desai mentions that

“Voice of SAP will not only bring the Disability community together but also strengthen their voice as a group. It will open up many avenues of empowerment for the individuals, matching of service needs with providers, connect projects and funding sources and foster creativity and innovation leading to empowerment.”

This is in line of what PM suggested too

“Let us all work together to create a world where persons with disabilities can scale new heights of success without any obstacles.”

Voice of SAP requests all who are directly or indirectly touched by disability to use the site to give words and details to challenges so that their issues can be sorted out. The site also has a special section where various NGOs can come together and collaborate their efforts and also where corporates can come forward to use their CSR (Corporate Social Responsibility) funds for the projects of the NGOs.
