## Message from the Founders

Dear Friends,  
Namaste.

It has been very aptly said "If you want to touch the past, touch a rock. If you want to touch the present, touch a flower. If you want to touch the future, touch a life." I am very happy to welcome you all to the first fundraiser of Voice of SAP, working for changing the life of millions of disabled people, whom we call Specially Abled People (SAP) or Divyang, by working with Government of India, law makers, corporations, universities, partner NGOs and volunteers for the Empowerment and Inclusion of SAP.

Let me share my life story. Could my parents imagine that their school going son will be affected by polio virus and lose mobility of both the legs? Absolutely NOT. Well, the reality is **Disability can occur to anyone at anytime!** After that life changing event, could my parents dream that I will get Engineering and MBA degrees and have excellent corporate career? No. Well, the reality is, with family support, lot of hard work and Inclusive education enabled me to do all of that and live independent life with dignity. Journey continues from Amdavad to America. Did I dream of becoming the Head of Sales of SBU for North America in global top 10 IT services company? Absolutely NOT. Well, secret is fully accessible infrastructure in the US enabled me to venture into Sales career back in 2007.

Social stigma, discrimination struggle, parents' sacrifices as a Polio survivor are part of my story but key is, what made it different? Education, Accessibility and Employment. Well, with these life experiences, VOSAP movement began in 2014 with clear goals of promoting Accessibility, Education and Employment by inspiring everyone to take inclusive actions as part of their ISR (Individual Social Responsibility).

Our goal is to create a mass movement to create inclusive society for 15% population of Persons with Disabilities (SAP), involve every NRI as we love our mother India so giving back with what we can is always our natural aspirational goal. Voice of SAP, UN accredited NGO (one of 350 out of thousands of disability NGOs, worldwide) brings to you a unique opportunity of Changing life of a Divyang in India.

Like 20 th century was for inclusion of women, 21 st century is for inclusion of Specially Abled People, the historic opportunity in front of all of us. With collective wisdom and impact of 4,000 volunteers (US, India), Voice of SAP has emerged as a thought leader and enabler to transform disability sector. We are immensely thankful to Shri Rashmibhai, supporting our cause, dedicating today's Soordas show as fundraiser for Voice of SAP. Many of us are involved in social causes that we love. We believe that each cause can find a little space for the disability related agenda so the cause becomes inclusive. Voice of SAP is here to help you extend your programs and charter to include needs of Specially Abled People.

Our supporters like Shri Manubhai, Shri BU Patel, Shri Ukabhai, 30+ generous sponsors and each one of you are tremendous strength to Voice of SAP and together we can change our motherland's physical infrastructure, change people's mind by spreading awareness and enable Divyang with assistive devices.

Personally, Usha and I, as founders of Voice of SAP will like to thank relentless efforts of our volunteers for past 2 months to live upto the challenge of making our first fundraiser, a success. We hope you will enjoy the soulful play and get inspired.

With best regards,

## Experience Happiness with Volunteering

by Dr Kavita Shankar, Executive Team member, Voice of SAP

In the efforts of spreading happiness, inspiring more people to join our mass movement of promoting Empowerment, Accessibility for Divyang jan (Specially Abled People), we have emerged as a global team of volunteers, built with the strength of 4,000+ volunteers, who have contributed their time, energy, money, skills, ideas and resources to bring it to the stage it is today and all the success and impact that has been achieved in such a short time is because of the collective effort of volunteers.

With extremely busy and stressful lives, it is challenging to find time to volunteer. However, research studies from Harvard, London School of Economics etc. and our own experience with VOSAP mission have unequivocally established that Volunteering positively impacts health, happiness, career goals, and overall enrichment of life.

**The Happiness Effect:** Four ways that volunteering enriches lives (Harvard Publication).

1. Volunteering connects you to new people that share your interest and enhances social skills
2. Volunteering is GOOD for the mind and body – gives sense of purpose, helps physical health by counteracting stress, depression, anxiety, loneliness etc.
3. Volunteering brings joy and fulfillment to life -harnessing creativity, motivation, vision to do good for others carries over in personal and professional life too.
4. Volunteering can help learn many job skills in a friendly, less stressful environment like public speaking, communication, marketing, team work etc.

Volunteering for VOSAP can bring happiness, satisfaction plus reshape our values, spur new awareness, both spiritual and emotional. Volunteering often brings about a new understanding, perspective, inspiration by spending time, engaging with community of Specially Abled People.

Through service to others, we are all defining and “practicing” the kind of human being we want to be – in each moment, in each decision, in every new encounter.

Anyone and Everyone can volunteer! In today’s digitally connected world we have many options to volunteer. Think beyond physical volunteering such as using phone, **mobile app**, social media for awareness creation, online research, sharing of knowledge and providing skills needed by the organization. Think of calling family and friends to inspire, share VOSAP perspective. These are all high impact volunteer efforts if you cannot get involved because of physical or logistical challenges.

We encourage all to inspire everyone to volunteer, be a “CHANGE-MAKER” to make their community accessible and inclusive.

By giving just a few hours a week, lifetime enrichment can be attained. Bear in mind that the most valuable skills you can bring to the VOSAP volunteer efforts are **passion and a positive attitude!**

Want to experience? **Take the pledge today with VOSAP Mobile app** and step up the volunteering efforts!

No amount of preaching will ever bring change but;

1. Every visible change in infrastructure like a ramp,
2. Every school with Specially Abled Students
3. Every workplace with Specially Abled Employees, **WILL!!**

With this, volunteers led mass movement, VOSAP aims to create CHANGE that is “VISIBLE” and “EXPERIENCED” because “ACTION SPEAKS LOUDER THAN WORDS”.

## Messages From VOSAP Donors in Los Angeles

### Message from Shri Bhukhubhai and Pushpaben Patel, Tarsadia Foundation

As Indians, we have an obligation to do whatever we can do for our brothers and sisters in India. Before 2 years, Pranav shared his idea of mobile app and I liked it right away as I want technology to help everyone and every place. I am supporting this mobile app developmentwork of Voice of SAP. This app has already shown very good impact and should be able to help many more Specially Abled People. I appeal to all of you to open your doors and wallet to support this very important social cause.

### Message from Ukabhai and Naliniben Solanki

Voice of SAP means taking responsibility of giving SAP, a chance to participate in our society per their capabilities, especially in India where a lot needs to be done. This great work is taken up by Pranav Desai. His efforts are very admirable as despite having his own issues because of Polio, still he is going across the US and India, inspiring thousands of people, spreading awareness etc.support Voice of SAP, know about their large scale impact in India, UN accreditation and innovative approach with VOSAP mobile app. This is a great humanitarian service to mankind so I urge all of you to be aware of the opportunity here, understand it. All of us as NRI should come together to change India's disability sector as great changes have been led by NRIs -Mahatma Gandhi was NRI. As a proud donor myself, I encourage all of you to support Voice of SAP mission. No donation is small or big when you do it from your heart

### Message from Shri Avadhesh and Uma Agarwal

Voice of SAP is a great Mission under the Leadership of Mr. Pranav Desai. Being a SAP individual is a nature's mandate. None of us have any control. Any one of us may have a SAP individual in our family. We must respect all humans as Gift from God and these people should be respected same way. They may need extra efforts to make their life living with peace, happiness & ample respect. Me and Uma seriously urge all to support Pranav's commitment. Thank you.

### Message from Shri Raju and Jagruti Patel

Dear Friends, Rarely we get an opportunity in life to support our dear PM Narendra Modi's grand vision. This organization, Voice of SAP, supports our specially abled friends by empowering them with assistive devices, promoting and building ramp and accessibility at mandir, schools and government offices. So, myself as a donor, appeal you all to please open your hearts and wallets to support this great cause. Thank you.

## Messages From VOSAP Donors in Los Angeles

### Message from Shri Mahesh and Mina Bhatt

Voice of SAP has a clear goal to give it back to society for unfortunate but respectable human being – Divyang. Mr Pranav Desai who himself has polio, is taking tremendous effort of educating and asking for mandating to make appropriate facility and provide good tools and technique for similar condition children's and youth to give them opportunity for their bright future. We would like to make special appeal to our Los Angeles Community members to join the mission of Voice of SAP and come together to create voice and help 70 crore Divyang in India. We appreciate Mr. Desai's great effort and wish him good luck and our good wishes are always with him and VOSAP.

Voice of SAP receives Accreditation for UN COSP (Conference of State Parties)  
 Voice of SAP presents during 11th COSP at UN HQ at side event  
 NTT DATA, Japan awards Founder Pranav Desai for Social Impact  
 Indian Ambassador to Japan receives VOSAP team  
 Special Note: Voice of SAP received NGO Accreditation to the UN COSP to the CRPD on June 12 2018

Dear VOSAPians,

With collective efforts and the impact of our volunteers, our model and execution strategies supported by VOSAP mobile app, Voice of SAP is now one of approx 350 NGOs working in the disability sector, accredited to the UN COSP (Conference of State Parties) to the CRPD (Convention of Rights of Persons with Disabilities).

Congratulations to all the volunteers and everyone supporting our vision and mission. This is a major milestone in a very long journey that we have started to Empower millions of Persons with Disabilities.

--> To be the "Change Maker", please download latest version of our mobile app, which is free, features and content rich with excellent performance. You can download from AppStore (iOS) or Google-play (Android).

Key Activities in last 2 months:

1. **UN Connect:** On June 14, Voice of SAP presented at side event during 3 days long, annual 11th COSP (Conference of State Parties) to the CRPD attended by 177 member states of United Nations. The topic was "[Individual Social Responsibility \(ISR\) to create Inclusive world for PwD, enabled by VOSAP mobile app](#)". We thank Permanent Mission of India at UN, who supported us at every step in making this a great success, helping member states to learn more about VOSAP mobile app and its India model with several examples of prototypes executed. Voice of SAP is highly thankful to Ms Shakuntala Gamlin, Secretary, Department of Empowerment of PwD, MSJE, Govt of India who also presented during this side event, presenting key initiatives that Govt. of India has taken in recent years to Empower PwD. VOSAP also thanks media friends in the US and India to cover details of this event.

Dy Minister of Tanzania took keen interest in VOSAP mobile app and requested for helping people of Tanzania by converting VOSAP mobile app in Swahili language. WHO and ILO leaders like Chapal Khasnabis and Ms Faustina Mukazi also took deep interest in understanding far reaching impact of VOSAP mobile app.

Voice of SAP is looking forward to play important role in accelerating implementation of UN CRPD goals.

2. **Government Connect:** On May 22 2018, VOSAP team was met with Ambassador of India to Japan H.E. Shri Sujan Chinoy in Tokyo to discuss initiatives to potentially revive JICA (Japan International Co-operation Agency) program to fund disability sector projects in India. There are hundreds of Japanese MNCs working in India and programmatic opportunities of employing PwD, skilling them, allocating CSR money to disability sector projects and providing access per "Accessible India Campaign" etc. were also discussed.

In Los Angeles, during a community event, local team of VOSAP met with Consulate General of India at San Francisco, Shri Ashok Kumar. They discussed options to reach out to NRI community and leaders to support "Accessible India Campaign", initiative of Govt. of India by adopting 1 building to upgrade with ramp etc.

3. **Corporate Connect:** On May 23 2018, NTT DATA Corporation, Japan (one of top 10 IT services companies in the world), awarded founder of Voice of SAP, Pranav Desai for the SOCIAL IMPACT of Empowering Specially Abled People. This award is highly important. It gave opportunity to inspire top management, executives in Tokyo for Voice of SAP mission and it has far reaching potential impact as several executives including Representative Director of the Board at NTT DATA Corporation and others. They are now considering ways in which they can take initiatives at NTT to help empower PwD.

4. **Youth Connect:** Voice of SAP was invited to conduct orientation session for 2018 batch of Master degree students at Institute of Sciences, Nirma University. Inspired by tremendous response of youth, VOSAP's Ahmedabad team is working on launching an Essay competition wherein youth can articulate their dream of accessible city, their dream of inclusive society as how it could be in next 10 years and what youth will do to achieve that dream. This is a VOSAP initiative with partner organization BPA (Blind People's Association) for next 5 months to promote awareness and youth engagement on inclusion of PwD.

5. **Community Connect:** As part of ongoing efforts to spread awareness among local communities, VOSAP team of Los Angeles, USA has decided to organize a show of Padma Shri artist Shri Shekhar Sen, performing character of "Soordas", visually impaired devotional poet, singer of 16th century, Lord Krishna devotee. This event is intended to spread mass awareness of Voice of SAP mission among thousands of Indians living in Los Angeles, Southern California and inspire them to take volunteer pledge with VOSAP app, start doing what they can to Empower PwD.

**Per WHO, 1 BN+ people are considered as Persons with disabilities**
